Description: The relatively high altitude of the growing location gives this wine a crisp acidity with strong aromas of citrus fruits, pineapple and quince.

The subtle scent and taste of oak wood develops through storing a third of the young wine in new oak barrels for five months. This gives our fruity Pinot Blanc a strong body with a long, mineral finish.

Recommended with: This wine is a perfect accompaniment to fish, poultry, light meat, risotto and light pasta dishes.

Serving temperature: 9° - 11°C

Price: 12,50 Euro
